👤 PROFILE

Master of IT student with prior experience as a software engineer, specializing in backend and full-stack development. Skilled in Python, JavaScript, Django, and ERP systems with proven ability to design, deploy, and optimize scalable applications. Recognized for leadership, teamwork, and delivering high-quality solutions under tight deadlines. **Currently seeking software development opportunities to apply technical expertise and contribute to innovative projects.**

🎓 EDUCATIONAL BACKGROUND

Masters Of IT (Professional Computing) Swinburne University Of Technology	Jul 2024 – present Melbourne, Australia
B.Sc in Computer Science & Engineering Rajshahi University of Engineering and Technology, Rajshahi	Jan 2017 – Oct 2022 Rajshahi, Bangladesh

🛠 WORK EXPERIENCE

Junior Full Stack Engineer AlterSense Limited.	Jul 2023 – May 2024 Dhaka, Bangladesh
• Worked on three ERP projects, contributing to commercial, accounting, procurement, and HR modules. • Implemented backend features using Python and enhanced frontend functionality with JavaScript. • Designed and optimized MySQL database schemas for faster data retrieval and improved reliability. • Collaborated with a team of 5 engineers to deliver project milestones within deadlines. • Used Git/GitHub for version control and Jira for task management, improving team workflow efficiency.	
Software Engineer(Intern) AlterSense Limited.	Apr 2023 – Jun 2023 Dhaka, Bangladesh
• Assisted in developing and testing ERPNext modules for accounting and procurement. • Gained hands-on experience with Python backend development and MySQL database management. • Supported senior engineers in debugging and improving system features.	

SKILLS

- **Programming:** Python, Java, C/C++, PHP, JavaScript
- **Frameworks & Tools:** Django, Frappe/ERPNext, Git/GitHub, Jira
- **Databases & Cloud:** MySQL, PostgreSQL, AWS
- **Mobile Development:** Android (Java)

PROJECTS

ShopOnline  Jul 2024 – Oct 2024
Developed an e-commerce website where customers can browse products, add items to the cart, and complete purchases, while managers can manage inventory and track sales.

Swinburne Car Parking System 
Built a Java GUI application for managing parking slots, enabling vehicle parking/removal, slot search, and real-time visual occupancy tracking via color-coded buttons and dialogs.

INCTL ERP Project - AlterSense Limited May 2023 – Jun 2024
Worked on ERPNext's accounting, procurement, and commercial modules using Python for backend logic, JavaScript for frontend enhancements, and MySQL for database management.

RUET MSc Management program 

Github- <https://github.com/dibbo116/MscManagement>

Built a Django-based web application for MSc program management at RUET using PostgreSQL, HTML, CSS, JavaScript, and deployed via Heroku.

PROBLEM SOLVING

I have solved around 350+ problems in different Online judges.
